# 1 How to Use this Document

---

The product updates offer brief, high-level descriptions of enhancements and new S2C features. They also include setup information, implementation tips to help you get started, and best practices to ensure your continued success.

## 2 How & When do Features Become Available?

---

Some features may affect all users immediately after the release goes live whilst other features require direct action by an administrator before users can benefit from the new functionality. Each feature listed within the release notes section will indicate the 'Availability' as either:

- Immediate
- Subject to Configuration

## 3 Browser Support

---

The latest version of the following browsers is supported:

- Google Chrome
- Mozilla Firefox
- Microsoft Edge

## 4 Release Highlights

---

These are covered in detail within the Release Notes section under the following headings:

- Library Upgrades and Security.
- Additional Functionality for Contract Management Hooks for future P2P Integration Solution
- Update to System Password Policy

## 5 Release Notes

### 5.1 Enhancements

#### Library Upgrades and Security

**Area:** Library Upgrades and Security

**Availability:** Ongoing, across this and future releases

#### **Description**

A number of individual work items will be delivered across multiple releases to support the new library upgrades within Proactis S2C. Please note that the library upgrades do not affect the end user experience.

Proactis thrives to keep our applications up to date to ensure that the site you are using are protected and secure. We are working on several security enhancements and vulnerability repairs across multiple releases.

The specific updates in this release are detailed in the following table:

Reference	Description
254443,254459,261893,263243,271550,271551,274255,274261,274290,274335,274341,274367,274371,274372,274386,274390,274475,278606,274391,279453, 268119, 278850, 275450, 278132	Library Upgrades and securities

#### 274371 – Change to System Password Policy

**Area:** System

**Availability:** Immediately

#### **Description:**

As a result of recent Security Tests, it has been suggested that the System Password policy should be strengthened. As such, the Password Length has been extended from 8 to 10 characters as a minimum. This will mean that any Users that do not comply to the new policy will be required to reset their password accordingly when logging in.

#### 275357 – Introduce Enable/Disable Functions for Contract Management Hooks

**Area:** Contract Management

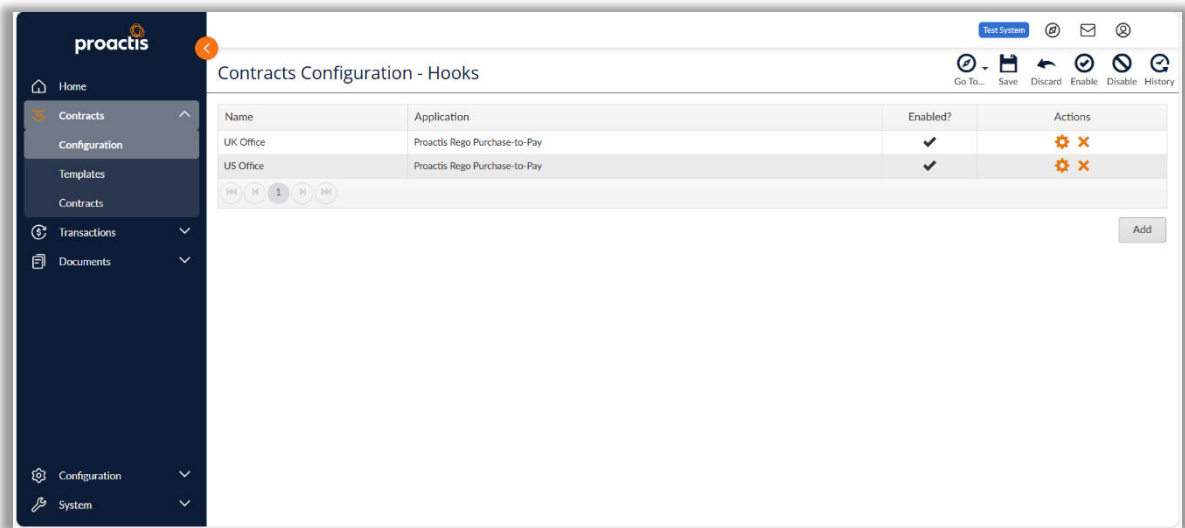

**Availability:** Immediately

#### **Description:**

As part of the new Contract Management Hooks functionality the ability to enable and disable Hooks has been introduced to Contract Management Configuration. This has been introduced as the

may be occasions where a Customer may wish to stop the integration of Contract Data to P1P2P and due to existing data already being processed cannot delete the Hook. As such, the Hook can now be Disabled and as such stop any future data to be integrated until re-enabled. New Hooks created will automatically be set to be enabled.

To Disable a Hook, or Enable a Disabled Hook select the row from the Hooks grid for the Hook you wish to work with a select the appropriate Enable or Disable Toolbar button. To save the changes, select the Save Toolbar button.

### **275359 – Include Disabled Hooks in Associating Hooks Functionality**

**Area:** Contract Management

**Availability:** On Configuration

#### **Description:**

In line with the above functionality to allow Hooks to be Disabled, the functionality to associate a Contract Management Hook with Contract Templates and Contracts has been amended so that only Enabled Hooks can be associated and as such Disabled Hooks will not display in the list available to be associated.

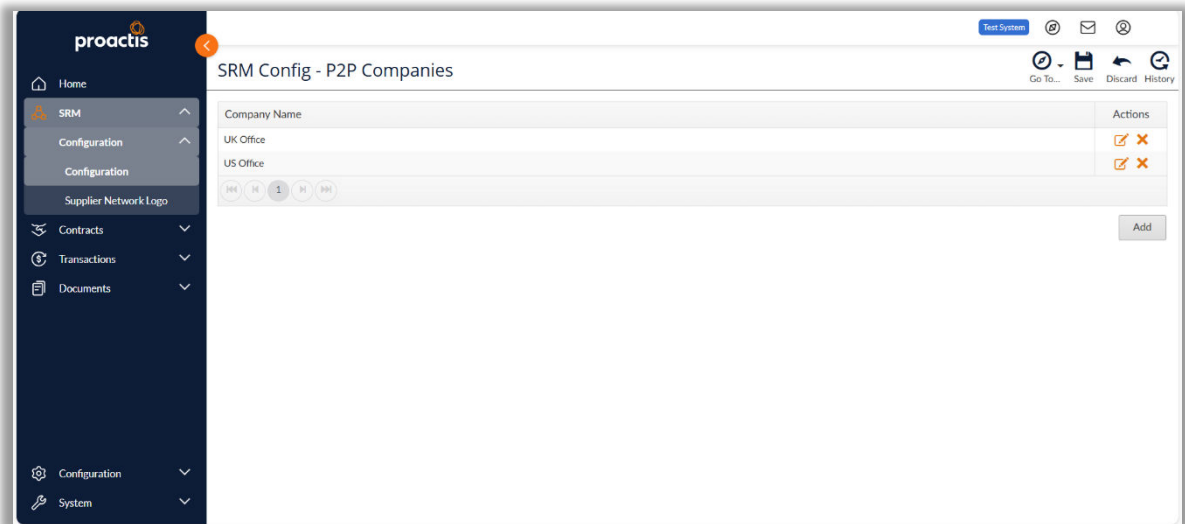

### **263611 – Allow P2P Companies in SRM to be deleted**

**Area:** SRM

**Availability:** Immediately

#### **Description:**

In the new SRM Configuration option for “P2P Companies”, the function to delete an entry has been made available.

Note the Delete button for each P2P Company defined in the Actions Column denoted as a Cross Symbol. Changes must be Saved to take effect by selecting the Save Toolbar button.

NOTE: Deleting a P2P Company will remove it from the P2P Company Tab in SRM and will delete the association with Suppliers.

### **274257 – Enforce Future End Dates Check on Contracts**

**Area:** Contract Management

**Availability:** Immediate

**Description:**

A change to the logic when outputting Contracts from Proactis S2C to Proactis P2P (P1P2P) whereby the Contract Setting for “Output on Activation” is set to Yes on a Contract. As such, when a Contract is Activated the Contract will be checked to ensure that it has an End Date set to a future Date. If the Contract does not comply with this, it will not be activated and the user will receive an on-screen alert. The Contract cannot be activated unless the Contract End Date is set to a Future Date to comply with the rule.

## 5.2 Defects

The following defects have been resolved within this update:

Area	Description
Sourcing	Ref 275453: An issue was reported whereby the Scoring Panel was not displaying on-screen on an RFX Response if the Response to the question included a long single string of text (e.g. a very long URL/Web Address). This has now been resolved
